Morning Session: Detex

Exits Devices - Seminar is for those whose building operation depends on hard working low maintenance, panic hardware (exit devices). Panic hardware is a critical part of a building's operation in the areas of: Security, Life Safety Egress, Fire Door protection, and Accessibility friendly openings. Additionally, panic hardware is often integrated into the access control system.

Electric Hardware to meet code requirements - Session covers the use of electrified exit devices to meet means of egress, fire and ADA codes requirements

Auto Operators - Detex Corporation AO19 Low Energy Swing Door Operator class

Afternoon Session: Command Access

Basic Electrical Seminar - This is a hands on seminar that will include fundamentals of the basic system Including: Voltage, Current, Continuity and the use of VOM meters for trouble shooting.

** Voltage meters are required for each person. You can order one in advance at a cost of \$25 or you can arrange to bring your own.
